

DEPARTMENT OF THE ENVIRONMENT

CANADIAN ENVIRONMENTAL PROTECTION ACT, 1999

Significant New Activity Notice No. 15095

Significant New Activity Notice

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

Whereas the Minister of the Environment and the Minister of Health have assessed information in respect of the substance 2,4,7,9-Tetramethyl-4,7-decanediol, Chemical Abstracts Service Registry No. 17913-76-7;

Whereas the substance is not on the *Domestic Substances List*;

And whereas the Ministers suspect that a significant new activity in relation to the substance may result in the substance becoming toxic under the *Canadian Environmental Protection Act, 1999*,

Therefore, the Minister of the Environment indicates, pursuant to section 85 of that Act, that subsection 81(4) of the same Act applies with respect to the substance in accordance with the Annex.

JIM PRENTICE

Minister of the Environment

ANNEX

Information Requirements

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

1. In relation to the substance 2,4,7,9-Tetramethyl-4,7-decanediol, a significant new activity is the use of the substance in Canada, in any quantity, as a component of domestic cleaners or personal care products.
2. A person who proposes a significant new activity set out in this Notice for this substance shall provide to the Minister of the Environment, at least 90 days prior to the commencement of the proposed significant new activity, the following information:
 - (a) a description of the proposed significant new activity in relation to the substance;
 - (b) the information specified in Schedule 4 of the *New Substances Notification Regulations (Chemicals and Polymers)*;
 - (c) the information specified in item 8 of Schedule 5 to those Regulations;
 - (d) the information specified in item 11 of Schedule 6 to those Regulations; and
 - (e) the mutagenicity data and a test report obtained from one *in vivo* mammalian test of the chemical for chromosomal aberrations, conducted according to the methodology described in the Organisation for Economic Co-operation and Development (OECD) Test Guideline No. 475 titled *Mammalian Bone Marrow*

Chromosome Aberration Test, together with data substantiating that the tissue investigated was exposed to the chemical or its metabolites and in conformity with the practices described in the "OECD Principles of Good Laboratory Practice" set out in Annex 2 of the *Decision of the Council Concerning the Mutual Acceptance of Data in the Assessment of Chemicals*, adopted on May 12, 1981, and that are current at the time the test data are developed.

3. The above information will be assessed within 90 days after the day on which it is received by the Minister of the Environment.

EXPLANATORY NOTE

(This explanatory note is not part of the Significant New Activity Notice.)

A Significant New Activity Notice is a legal instrument issued by the Minister of the Environment pursuant to section 85 of the *Canadian Environmental Protection Act, 1999*. The Significant New Activity Notice sets out the appropriate information that must be provided to the Minister for assessment prior to the commencement of a new activity as described in the Notice.

Substances that are not listed on the *Domestic Substances List* can be manufactured or imported only by the person who has met the requirements set out in section 81 of the *Canadian Environmental Protection Act, 1999*. Under section 86 of the *Canadian Environmental Protection Act, 1999*, in circumstances where a Significant New Activity Notice is issued for a new substance, it is the responsibility of every person who transfers the physical possession or control of the substance to notify all persons to whom the possession or control is transferred of the obligation to comply with the Significant New Activity Notice and of the obligation to notify the Minister of the Environment of any new activity and all other information as described in the Notice. It is the responsibility of the users of the substance to be aware of and comply with the Significant New Activity Notice and to submit a Significant New Activity notification to the Minister prior to the commencement of a significant new activity associated with the substance. However, as mentioned in subsection 81(6) of the *Canadian Environmental Protection Act, 1999*, a Significant New Activity notification is not required when the proposed new activity is regulated under an act or regulations listed on Schedule 2 of the *Canadian Environmental Protection Act, 1999*.

A Significant New Activity Notice does not constitute an endorsement from Environment Canada of the substance to which it relates, or an exemption from any other laws or regulations that are in force in Canada and that may apply to this substance or activities involving the substance.
